

# Linear Pallet Magazine System (LPM)

FMS Single Level Pallet Stacker Type System

FMS Stacker multi-level with Crane Type System

## Pursuing High Productivity

- ✓ Multiple pallet stockers with Automatic Guided Vehicle (AGV) (Design to order - layout solutions available)
- ✓ System scheduling by Windows PC based Cell Controller

### Niigata ICC System Controller

- ✓ Safe Work Area Load / Unload stations
- ✓ Flexible Design for LPM Future expansion of machines and pallet stockers

### Incremental Implementation

- ✓ Designed for field retrofit after machine installation
